The Quality Image...

It's been over 100 years now and our business philosophy hasn't changed much since the beginning.

It's simple, we want to make you look good, while providing a wide variety of quality garments to keep your company's image polished and memorable.

How we go about outfitting you and your employees of course depends on what works best for you. The bottom line for us has always been in providing quality, value, and service to our customers. Because when we put your name on our garments, we want to create an image we both can be proud of.

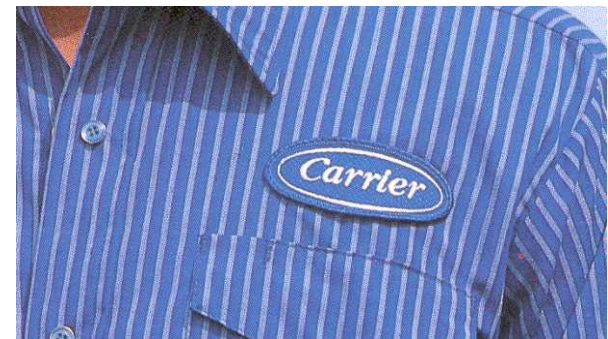

Computerized Cutting

Our state of the art, computer driven, pattern design and cutting system enables Protexall to provide precision cutting on all manufactured garment patterns. Our process insures each garment is designed and cut to the same specifications each and every time. The result is a proper and consistent fit of our garments satisfying the most discriminating customer.

Direct Embroidery

Our in house design staff is ready to meet the challenge of enhancing your corporate identity program. With our up to date, fully automated multi-head, multi-needle embroidery equipment, we can personalize almost all of the quality products we deliver. At Protexall, your professional image is our concern.

Exclusive Corporate Programs

Protexall has the ability to design a uniquely recognizable Image Wear program and custom fabrics. Contact your Sales Representative or Protexall to see how we can design a unique identity that no other company has access to.

The Protexall Difference

Company Profile

Originated in 1889 and trademark registered in 1916, Protexall has always been synonymous with quality wear and prompt delivery. Our manufacturing, warehouse, and executive facilities are located in Central Illinois that allow prompt delivery to all over the United States and Canada, as well as international shipments.

Protexall has well been established as the national leader in image creation, quality, service and delivery.

We have been rewarded with great success by putting Image Wear Programs together for Fortune 500 companies such as John Deere, Carrier, and Pepsi Cola to name a few. Image plays a major role in the success of companies that provide quality service and products to their customers. Our success comes from the customized service and attention given to each account from the design phase all the way to delivering a quality product.

Benefits of a Professional Image

Studies have proven that it is a companies image that has the biggest impact on a customers perception about a company. The following is an excerpt from an article that appeared in DYI in April 1998

Why do your customers patronize your business instead of the competition? And how can you keep them from jumping ship?

"The most important factor", says Homer Hagedorn, an organization development specialist at the Cambridge, Massachusetts-based Management Institute of Arthur D. Little, "is often the image the company's employees project to the customer". One uncaring, unkempt, or rude employee can overshadow a superior product and better service.

Protexall has over 110 years of supplying companies with a quality image program that is second to none. Independent tests of Protexall garments show that Protexall's garments were consistently superior in wearability, color and crease retention over our competitors. What this means to companies that participate an Image Wear Program present a sharper more professional image to the public.

Delivery

Protexall is the industry leader in delivery and customer service. Orders that are received correctly are normally shipped complete within 14 days. Specialty items and that are not part of the normal image wear program many have longer lead times.

Terms

Protexall requires that invoice be paid in Net 30 days. We accept Visa and MasterCard.

Upper Garment Back Lettering

Company names stitched on the back of upper garments or certain jackets provide greater visibility and increased advertising value. Lettering is done in shrink resistant thread, full block style, unless otherwise specified. Back lettering is not available on vests, quilted jackets, or some casual wear items

Specifications: three lines, 13 letters per line, one inch in height. Straight and arched back lettering styles are available.

Direct Embroidery

Embroidered logos and company names can be applied by direct thread stitching from a programmed design. Such embroidery gives very sharp detail. Logo embroidery is a contemporary, handsome technique that adds distinction and visual impact to the garment. Your existing company logo can become direct embroidery or Protexall can assist in creating an embroidered logo to represent your business.

Front Employee Names

Protexall monograms personal names on the front of shirts, jackets, coveralls, and smocks. Names are done in red thread, unless otherwise indicated, script style.

PROTEXALL GUARANTEE

Every Protexall garment is guaranteed to meet with your complete satisfaction. If you are not satisfied with any Protexall garment, just call us for a return authorization number. We will exchange, correct or issue a credit on any defective item. Non-standard size garments that have been worn or laundered, or garments that have been lettered according to your instructions are not returnable unless they are defective. Returns for size exchange or credit must be made within sixty days of shipping date. Garments returned for credit, shipped according to your instructions or purchase order, are subject to a 20% restocking fee.
